How can anyone get to this level of "self education" without self awareness? Is it a general distaste for the normal channels of education? How can someone like OP come to have theories on medicine and say out loud that they'd like them to be discussed and taken seriously?

If you take enough LSD you might not even be aware you are in an ICU dying.

Anon, wake up. There is no pandemic. You are in some kind of drug induced coma from some bad acid you took. You've got to come back to us, anon. We miss you.

In all honesty, I feel like it might do some mental flip that will keep them alive. There's got to be some science to this.

>>252507409

Shit, mama i'm coming home

In all honesty, you have people throwing aids and malaria medicine at this cov-19 problem so suggesting LSD isn't that far fetched. What's the harm in even humoring it?

The mental effects of the LSD might put the body into overdrive mode, and thus produce enough antibodies ect to fight off the virus. The LSD makes the body work at 110%, any CIA/Fed niggers give this a shot. I'm serious, any intelligence/medical agency give it a fucking shot. You have absolutely nothing to lose, I know you niggers do worse anyway.

Im a medical professional and my theory is microdosing with the right frame of mind may prevent you from impeding yourself. However use caution, my brother micridosed before hitting the slopes for the first time in 5 years this winter, decided to go off jumps for first time in over 10 years, was confident enough to hit the biggest park jumps I was sober and scared of. Third run broken clavical cause he didnt fall right.

I'd like to see experiments seeing how a high dose of LSD would effect COV-19.

Micro-dosing LSD seems to have positive effects on mental and physical abilities. I'm wondering if LSD was applied to COV-19 that their mind might possibly be able to overcome what the virus is doing. Any psychonauts or medical professionals care to weigh in? My idea is that LSD might be able to curb the cytokine storm, and possibly be able to reverse serious effects of the virus itself
